

# Weekly Report

5/09/2016-5/15/2016

## Work

- I have almost finish the patent application.
- I complete five assignments of Applied Mathematics for Computer Science including curve fitting, PCA, E-M algorithm, Levenberg-Marquardt method and SVM with quadratic programming.

## Plan for next week

- I will draw a flow chart and modify content of the patent application on Monday.
- Write a report about several algorithm in assignments of Applied Mathematics for Computer Science.
